

Shrewsbury Pump Shotgun

How to install ?

1. Open the zip and then drag and drop the "Shrewsbury Pump Shotgun" folder to mods\update\x64\dlcpacks.
2. Add Shrewsbury Pump Shotgun entry to dlclist.xml located in mods\update\update.rpf\common\data (Look at original lines for reference).
3. This will replace the vanilla shotgun, if you don't like this method then extract the dlc somewhere and pull the weapon files out of it, put them to patchday8ng.
